SUMMARY

A dedicated Full-stack Developer and Engineering student focused on crafting calming, sleek, and reassuring digital experiences. I specialize in building minimalist, high-tech interfaces with a strong emphasis on financial security and futuristic design. Passionate about bridging the gap between complex hardware systems and intuitive, user-centered software.

WORK EXPERIENCE

Elevvo | Front-End Web Development Intern   **October 2025**

- Successfully completed a 2-week intensive Front-End Web Development Internship Program.
- Recognized for dedication, commitment, and high-level performance throughout the duration of the program.

ECX 5.0 (Engineering Career Expo) | Technical Trainee (Frontend Development)   **May 2025**

- Completed comprehensive technical training in Frontend Development during the ECX 5.0 cycle.
- Mastered core frontend principles and modern web workflows under the guidance of Training Lead Faisal Adams.

PROJECTS

FutureProof | React, Python, AI Integration
- Developing an AI-powered career navigation platform specifically designed for Nigerian youths.
- Conducting market research and user persona development to tailor career paths for emerging job markets.

Bridge | JavaScript, Speech Recognition API, Tailwind CSS
- Developing an AI-powered career navigation platform specifically designed for Nigerian youths.
- Conducting market research and user persona development to tailor career paths for emerging job markets.

SuiSecureDrop | Sui Blockchain, Move, React
- Engineered a decentralized asset security protocol for secure digital asset transfers.
- Participated in technical sprints to refine the protocol's security architecture for hackathon submission.

ADDITIONAL INFORMATION

TECHNICAL SKILLS
- Languages: JavaScript, TypeScript, Python, HTML/CSS, Solidity (Smart Contracts).
- Frameworks/Libraries: React, Next.js, Tailwind CSS, Aiken (Cardano).
- Developer Tools: Git, GitHub, VS Code, Vercel, FreeCAD(embedded systems)
- Specializations:Full-Stack development, Web3 & Blockchain (Cardano, Sui), Systems Engineering.
